

ASBRU Compact 30/54 Plus

- the advanced tool for creative people

ASBRU Compact 30/54 Plus is a dream come true for every signmaker

The new ASBRU Compact 30/54 Plus is built around well-proven technology. The printer's high reliability and the easy-to-operate functions on the machine allow you to focus on your production. The many options you have with this print and cut machine are numerous. With this printer you can deliver a lot of your customers' requests for different print jobs - durable outdoor signs and billboards, posters and banners, streamers, decals, labels, heat transfers, paper, you practically can't say no to your customer.

Outstanding and faster Printing Results

Continuing in ASBRU's tradition of outstanding performance, ASBRU Compact 30/54 Plus uses variable dots and Piezo inkjet technologies to print brilliant graphics that are water, scratch and UV resistant. For the most demanding jobs, ASBRU Compact 300 Plus can print up to 1440 dpi resolution and the fastest output is 15 m²/h.

Easy Connection and start-up

ASBRU Compact 30/54 Plus is user friendly to set up and easy to operate. Easy connection to your network or directly to your computer with built-in Ethernet connection. Install VersaWork from the CD and your production already starts the same day as you get your printer installed.

Safe Solvent inks offer low-cost media options and you can choose what kind of ink you want to use

ASBRU Compact 30/54 Plus uses environmentally friendly organic solvent ink allowing you with almost complete media independence to print on low cost uncoated substrates for brilliant long-lasting results without lamination. Using the Original ASBRU Solvent or ASBRU EcoSolvent Ink set together with our ICC color profiles, you will get a solution to print vibrant photographic images and accurate spot colors onto the substrate of your choice.

Take-Up System

ASBRU Take-Up System is optional and helps you achieving a professional handling of the finished prints. An extra guarantee for those who intend to print after hours.

Print & Cut - Function

ASBRU Compact 30/54 Plus offers you Print & Cut with integrated contour cutting, which makes it easy to produce multi-colored cutout logos in different sizes and shapes.

All these features make ASBRU Compact 30/54 Plus a genuinely versatile machine that can tackle many types of indoor and long-term outdoor durable print & cut application.

ASBRU Refill-system
Compact is delivered with refill cartridges which gives visual ink control and no waste.
